Cast-iron - Idioms by The Free Dictionary A cast-iron guarantee, piece of evidence, etc. is absolutely certain and can definitely be believed. They are demanding cast-iron guarantees of a fair hearing. Whatâ€™s the Difference Between Cast and Wrought Iron ... Cast iron is formed by smelting iron ore, or melting pig iron (the product of iron ore extraction), and mixing with scrap metals and other alloys. The liquid mixture is poured into molds and allowed to cool and solidify. Due to its higher carbon content, cast iron solidifies as a heterogeneous alloy, so it contains several materials in different phases within its microstructure, which affects its physical properties. Cast-iron cookware - Wikipedia Enameled cast iron is cast iron that has a vitreous enamel glaze applied to the surface. The fusion of the glaze with the cast iron prevents rusting, eliminates the need to season the metal, and allows more thorough cleaning. Enameled cast iron is excellent for slow cooking and drawing flavor from foods.
